

Team Involvement in Demonstration

Date: xxxxx

Team ID: xxxxx

Project Name: Virtual Agent-Driven SLA Breach Awareness & Justification System

Maximum Marks: 1 Mark

Project Overview

This document records the active participation and specific roles of each team member during the demonstration of the Virtual Agent-Driven SLA Breach Awareness & Justification System. It ensures that every member contributes meaningfully to the presentation of the ServiceNow Admin capabilities implemented—including proactive awareness, structured accountability, and real-time reporting—and that responsibilities are distributed fairly and clearly.
